Word problems with more than one step

Watch out – it might not just be multiplying that is needed.

How many more apples are needed when you buy 6 bags of 5 apples and I need 32 apples for our snack next week?

Lollipops cost 2p.
Sam wants to buy enough for his class to have for his birthday.
There are 25 children in his class.
He also wants to buy a lollipop for his teacher.
How much does Sam have to spend? _____p

A box of pencils holds 5 pencils when full. There are 2 full boxes of pencils.
4 pencils are then taken away to be used. How many pencils are left?

Sally buys 3 cinema tickets costing £5 each.
How much does she spend?

Write the multiplication number sentence and calculate the cost.

If Sally paid with a £20 note, how much change would she get?
