Adding Tens Word Problems

1. I took some apples to my Gran's house at the weekend. I had 36 to start with and Mum gave me 10 more to take. How many did I have?

2. When I am 10 years older I will be 17. How old am I now?

3. Mrs Riches put 6 of the children's pictures up on the wall and then put up another 10, and then another 10. How many were then up altogether?

4. James saved up 63p one week and 30p the following week. How much did he save altogether?

5. Lottie wrote 10 words on a line and then wrote 10 words on two more lines. How many words did she write altogether?

Can you make up some of your own like this?
