WALT: Solve problems involving division.

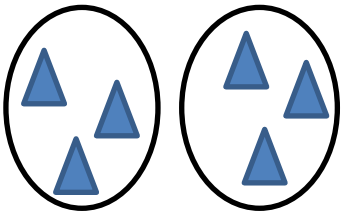

Count how many there are in total. Count how many rows or columns they have been divided into and how many are in each.

	8 in total 2 rows 4 in each row 8 ÷ 2 = 4	8 in total 4 columns 2 in each column 8 ÷ 4 = 2
		
		
		
		

Look at these pictures and arrays. Write a **multiplication** and a **division** number sentence to go with each one.

Draw your own array and write a division and multiplication sum to go with it.
