Make 3

9 - 6 = 3

□ - □ = 3

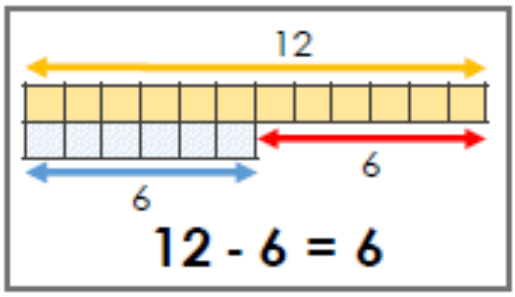

□ - □ = 3

Other ways:

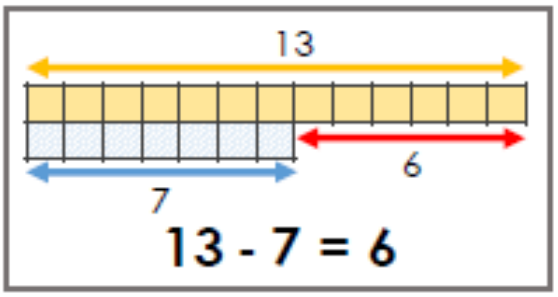

□ - □ = 3

□ - □ = 3

Make 6

12 - 6 = 6

13 - 7 = 6

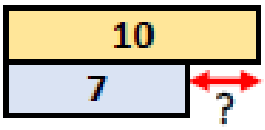

11 - □ = 6

10 - □ = 6

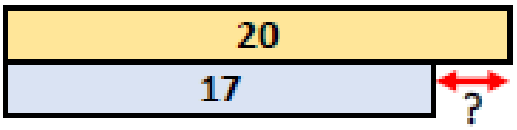

14 - □ = 6

15 - □ = 6

The same… different…

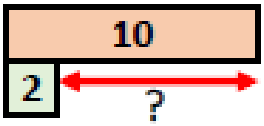

$10 - 7 = \square$

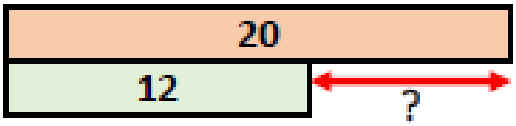

$20 - 17 = \square$

The same… different…

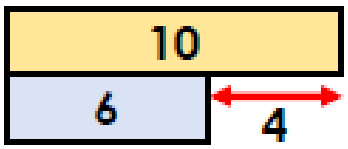

$10 - 2 = \square$

$20 - 12 = \square$

I know… so…

10 - 6 = 4

$20 - 6 = \square$

$20 - 16 = \square$

$100 - 60 = \square$

$10 - 4 = \square$

$20 - 4 = \square$

$20 - 14 = \square$

Which number sentence?

2 boys and 3 girls. How many children?

Which number sentence:

$2 + \square = 3$ ⟵ **OR** ⟶ $2 + 3 = \square$

6 children. 4 girls. How many boys?

Which number sentence:

$4 + \square = 6$ ⟵ **OR** ⟶ $6 + 4 = \square$

5 children. 1 boy. How many girls?

Which <u>two</u> number sentences:

$5 = 1 + \square$ $\quad 5 + 1 = \square$ $\quad 5 - 1 = \square$

4 girls. 7 children. How many boys?

Which <u>two</u> number sentences:

$7 + 4 = \square$ $\quad 7 - 4 = \square$ $\quad 7 = 4 + \square$
